IMPORT-EXPORT 201 SEMINAR – MARCH 13
FOCUS ON TRUMP ADMINISTRATION TRADE ACTIONS

The Section 232 (aluminum/steel), Section 301 (China products), and other Trump Administration trade actions in the last year have not only posed challenges for importers and exporters, but they also provide a great learning opportunity. As a result, we are revising the Section 201 sessions on March 13 to focus on the legal basis, issues, and challenges raised by these new trade policies. Whether or not your company has been directly impacted by these trade policies, the training sessions will provide attendees with a better understanding of the details, as well as concepts for ensuring compliance and minimizing exposure through exclusion requests, supply chain changes, and the focused application of regular trade compliance processes.
