

NEW PRODUCT EXCLUSIONS—CHINA SECTION 301 LIST 3 NOVEMBER 8, 2019

On November 7, the U.S. Trade Representative (USTR) announced the latest round of approved product exclusions from China Section 301 [List 3](#) duties. These product exclusions are set forth in two (2) ten-digit HTSUS classifications and thirty-four (34) new product-specific descriptions. They include certain axle shafts, aluminum cylinder heads, static converters, electrical insulators, vinyl floor tiles, paperboard boxes, silk fabrics, dog and cat leashes, cast iron sinks, oak wood moldings, folding chairs, cutting pliers, portable drill presses, extension cords, aluminum road wheels, etc.

The product exclusions from the China Section 301 duties are available for any importer for any product that falls within the special product descriptions and enumerated ten-digit HTSUS classifications. This is true regardless of whether the importer filed an exclusion request. Clients may also benefit through filing Post-Summary Corrections or Protests for those entries now covered by a List 3 product exclusion to secure refunds plus interest. List 3 product exclusions are retroactive to September 24, 2018 and effective until August 7, 2020.

Clients may contact [Ryan Thornton](#) to obtain an updated comprehensive spreadsheet we have prepared of all product exclusions from China Section 301 duties to date.

Please contact [Marshall Miller](#), [Brian Murphy](#), [Sean Murray](#), or [Ryan Thornton](#) with questions or for assistance.
